

PrivilegeHR

Franchising with Confidence

**Launch your HR consultancy today
with the support of industry experts**

Join a peer network that will support you to succeed

Building a business is one of the most exciting and rewarding ventures you can experience, but it isn't without its risks. We've learned the do's - and more importantly, the don'ts - when developing a HR consultancy, and have succeeded at developing an excellent reputation with an ever-growing portfolio of clients and services.

Our team have created a unique offering to support you in starting and developing your own company. And, unlike many offerings, we focus on developing long-term relationships with our franchisees. We want to see you succeed, and we'll be there with you at each step of the journey.

We've built Privilege HR on the understanding that people are at the heart of every organisation. We're looking for people like you to help us go further

Access 30 partners delivering over 80 expert services on our online portal

We've developed a reputation for delivering a people-first service, a network of respected partners, and a modern online portal which provides clients with year-round access to over 80 services, as well as a host of resources.

As a franchisee, you will gain access to all of this, plus much more. This means that you will be able to grow your business from day one and earn revenue by promoting the services of partners

We've developed a business in a box to get you started

This is your opportunity to develop a business with the support of a dedicated team, established network - and a clear framework.

You will get access to comprehensive training programs, operational guidance, and marketing assistance, empowering you to succeed in your development.

By choosing to become a franchisee, you will align yourself with a trusted brand, capitalise on our established infrastructure, and tap into a thriving network, making it a compelling opportunity for ambitious individuals looking to make a lasting impact in the human resources and workforce development sector.
